Esperienza specialistica più che trentennale, capacità di monitorare costantemente le aspettative del mercato e impegno concreto per la qualità fanno di Biennebi un valido riferimento internazionale nella produzione di articoli per infissi e minuteria varia in ottone.

Fattore caratterizzante dell'identità aziendale è quello di investire risorse ed energie per essere un vero partner del cliente, ben oltre il ruolo di fornitore.

Il dialogo con aziende leader in tutto il mondo ha sviluppato infatti una cultura imprenditoriale solidamente basata sull'unione tra affidabilità, robustezza e stile dei prodotti, il tutto senza mai rinunciare alla competitività dei prezzi.

Una personalità che si nota immediatamente consultando questo catalogo, principale testimonianza di un impegno del quale l'azienda è orgogliosa: un repertorio di opportunità nel quale spiccano l'ampiezza della gamma, l'esclusività dei modelli, l'attenzione qualitativa e il livello delle finiture. Ecco perché il catalogo è stato appositamente pensato e realizzato con scelte grafico-visive che mettano in luce i valori guida della produzione Biennebi.

In tal senso l'azienda considera il catalogo un concreto strumento di lavoro, parte integrante del servizio offerto alla clientela, che inizia dal facilitare la scelta dei prodotti e si sviluppa con l'attività dell'Ufficio Tecnico, sempre a disposizione per consigli, consulenze e per dare vita a nuovi progetti in base ad ogni specifica necessità e aspettativa.

Il catalogo interpreta tutta la volontà di crescita Biennebi e allo stesso tempo dimostra che i migliori risultati scaturiscono dalla collaborazione con la clientela.

A more than 30-year-long specialistic experience, the capability of constantly monitoring the market expectations and an effective commitment for quality made Biennebi become a valid international reference company as concerns the production of items for brass casings and various small items.

A distinctive feature of the company identity is to invest resources and energies in order to become an effective partner to our customers, far beyond the mere role of supplier. The constant feedback with leading companies all over the world has in fact developed an entrepreneurial culture which is firmly based on concepts such as reliability, soundness and style of the products, without holding back from assuring competitiveness of the prices.

A personality which makes itself immediately conspicuous upon consulting this catalogue, our major evidence of a commitment the company is proud of: a repertory of opportunities among which stand out the wide range of products, the exclusivity of the designs, the qualitative accuracy and the level of the finishing. That's why this catalogue has been suitably devised and realised with graphical-visual selections capable of emphasizing the leading values of the Biennebi production.

As a matter of fact, the company regards this catalogue as a concrete work tool, an integral part of the services offered to its customers which start by making the products selection easier and go on by offering the professionalism of its Technical Bureau, always at disposal for eventual advices, consultations and for setting up new projects according to every specific need and expectation. The catalogue speaks for the wish of growth of Biennebi and, at the same time, shows that the best results arise from the cooperation with the clientele.

■ Art. 500/515 kit ferma ante magnetico in ottone è così composto:

N° 2 corpi in ottone con magnete al neodimio MPN 35 nichelati resistenti sino ad una temperatura esterna di -30°C / +80°C con garanzia di minimo anni 10.

N° 2 garnizioni in gomma a chiusura ermetica resiente sino ad una temperatura esterna di -30°C.

N° 2 viti 6 x 30 mm e n° 2 viti 6 x 70 mm (per articolo 515 due viti 6 x 30 mm + vitone zincato Ø 8 mm lunghezza 200 mm).

■ Art. 500/515 brass magnetic tieback set consists of:

2 brass, nickel-plated, bodies with neodymium magnet MPN 35, resistant up to external temperature of -30°C / +80°C, 10-year-warranty minimum.

2 gaskets in rubber, hermetically sealed, resistant up to external temperature of -30°C.

2 6 x 30 mm and 2 6 x 70 mm screws (for art. 515 two screws 6 x 30 mm + galvanized screw Ø 8 mm length 200 mm).

Brass magnetic tieback, with mpn 35 neodymium permanent magnet  
resistance -30°C +80°C, 10-year-guarantee, tensile force 5 kg

## Ferma ante magnetico in ottone per pareti con cappotto isolante

Brass magnetic tieback for walls with insulation

Istruzioni per il montaggio alle pagine 11 e 12 - Assembling instructions at pages 11 and 12

## Dispositivo ferma ante magnetico.

**Dispositivo di bloccaggio per serramenti con ante in posizione di completa apertura.**

Nuovo dispositivo magnetico per bloccare i serramenti con ante, il dispositivo facilita le operazioni di montaggio per mezzo di guarnizioni e spessori ad incastro evitando corrosioni e riducendo sia i tempi di installazione che eventuali pericoli per l'installatore.

Questo dispositivo può essere applicato a porte, finestre e ante, e a tutti i serramenti in genere, disposti sia all'interno che all'esterno.

### Diverse possibilità di fissaggio.

Come mostrano le immagini, possiamo utilizzare il dispositivo sia all'estremità esterna dell'anta che nella parte più vicina al movimento dell'anta, questa flessibilità di posizionamento permette di utilizzare il dispositivo in svariate situazioni.

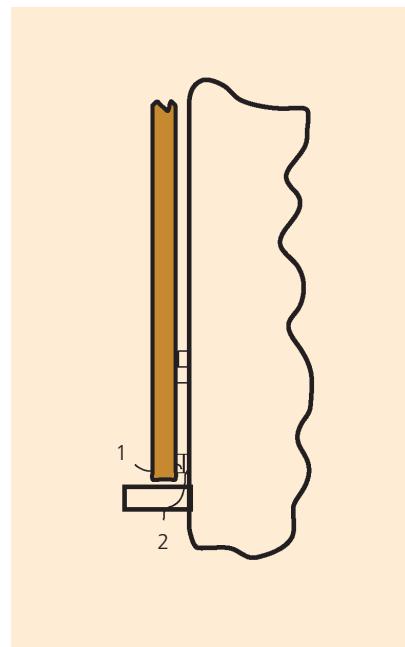

Questo nuovo sistema di bloccaggio permette all'utente di agire direttamente sull'anta senza necessità di azionare qualsiasi tipo di sistema o meccanismo o parte al di fuori dell'anta stessa.

## Magnetic tieback device.

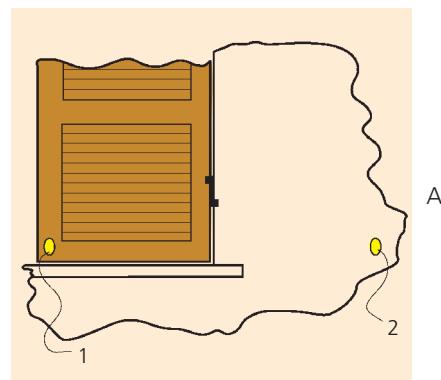

**Locking device for window/door frames to hold the shutter panels in a complete open position.**

New magnetic device to lock the shutter panels of window/door frames; this device makes the installing operations easier by means of fittings and interlocking shims in order to avoid corrosion and to reduce the time needed for installation, besides avoiding any possible hazard for the installer.

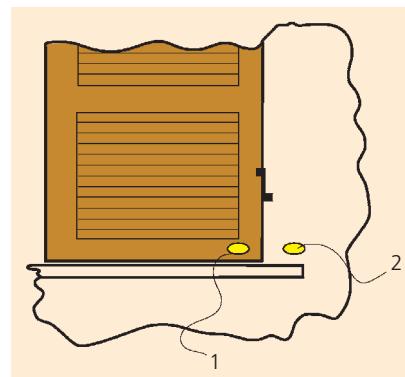

This device can be applied to doors, windows and shutters, and to any other external or internal window and door frame in general.

Posizione A = massima resistenza magnete  
Position A = maximum magnet strength

A

B

Posizione B = minima resistenza magnete  
Position B = minimum magnet strength

## Istruzioni per il montaggio.

### Art. 500-498 Ferma-ante magnetico.

Il modulo di base dell'articolo ferma ante o serramenti in genere, è composto da un corpo (1) e da una guarnizione (2) al cui interno è inserito un magnete (3). Per il montaggio unire i tre componenti come indicato in figura sino ad ottenere un corpo unico (fig 2). Dopodiché posizionare un dispositivo sulla parete e uno sul serramento facendo attenzione che all'apertura del serramento il dispositivo coincida con il dispositivo sulla parete. Fissare successivamente tramite viti i rispettivi dispositivi. Nel caso in cui vi sia la necessità, dovuta ad esempio ad irregolarità sulla parete, sono disponibili degli spessori art. 500/A (4), i quali vanno posizionati sotto il dispositivo come indicato in fig. 3.

#### ATTENZIONE:

nelle fasi di assemblaggio del dispositivo rispettare gli incastri, come indicato in fig. 1,3 e fissare correttamente per garantire la tenuta e per non compromettere il funzionamento.

### Art. 515-520 Ferma-ante magnetico per pareti con cappotto isolante.

Per il montaggio dell'articolo, è necessario assemblare prima l'articolo 500, dopodiché procedere al posizionamento del corpo (5) e fissarlo tramite le viti (6) come indicato in fig. 4. Assemblato il dispositivo fare attenzione alla brugola (7), la quale fisserà l'articolo 500 alla vite (8) precedentemente fissata sulla parete.

È possibile, inoltre, inserire come indicato per l'articolo 500 degli spessori art. 500/A i quali andranno posizionati nella zona inferiore come indicato nelle figure 5 e 6.

#### ATTENZIONE:

fissare correttamente le diverse parti per non pregiudicare il corretto funzionamento e la tenuta dell'articolo 500.

## Assembling instructions.

### Item no. 500-498 Magnetic tieback for shutters.

The basic unit of this tieback device for shutters or window/door frames in general, consists of a body (1) and a fitting (2) containing a magnet (3) in the inside. To assemble the pieces, join together the three components as described in the illustration in order to obtain one single body (fig. 2). Fix one device to the wall and one to the window/door frame by paying attention that when the window/door frame opens the device must correspond to the device fitted to the wall. Then attach the devices by fixing them with the screws. If needed, e.g. when the wall is uneven, shims item no. 500/A (4) are available to be positioned under the device as illustrated in fig. 3.

#### WARNING:

upon device assembling, take care of the embeddings, as illustrated in fig. 1, 3 and fix properly, in order to assure tightness without affecting the proper working.

	Black lacquered brass double polarity template marked holes for art. 498-520																			
550	Inserto singolo in ottone per cappotto con svasatura Ø 15 mm e vite centrale, compatibile con art. 498, lungh. 65mm, largh. 32mm, H 7mm+2 viti 4MA	30	● ● ● ●			●		●		●		●								
	Single brass insert for insulation with recessed head Ø 15 mm and central screw, compatible with art. 498, length 65 mm, width 32 mm, height 7 mm + 2 screws 4MA																			

Le finiture sotto illustrate sono relative all'articolo 498, per le finiture degli altri articoli vedere la tabella.

The finishes listed hereunder are relevant to art. 498; as concerns the finishes of the other items, please refer to the table.

■ Art. 498/520 kit ferma ante in ottone è così composto:

N° 2 corpi in plastica con magnete al neodimio MPN 35 nichelati resistenti sino ad una temperatura esterna di -30°C / +80°C con garanzia di minimo anni 10.

N° 2 garnizioni in gomma a chiusura ermetica resiente sino ad una temperatura esterna di -30°C.

N° 4 viti 4 x 30 mm (per articolo 520 due viti 4 x 30 mm + vitone zincato Ø 8 mm lunghezza 200 mm).

■ Art. 498/520 brass magnetic tieback set consists of:

2 plastic, nickel-plated, bodies with neodymium magnet MPN 35, resistant up to external temperature of -30°C / +80°C, 10-year-warranty minimum.

2 gaskets in rubber, hermetically sealed, resistant up to external temperature of -30°C.

4 4 x 30 mm screws (for art. 520 two screws 4 x 30 mm + galvanized screw Ø 8 mm length 200 mm).
